

# POLICY – Relationships and Sex Education

---

## Aims:

The aims of relationships and sex education (RSE) at our school are to:

- Provide a framework in which sensitive discussions can take place
- Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- Help pupils develop feelings of self-respect, confidence and empathy
- Create a positive culture around issues of sexuality and relationships
- Teach pupils the correct vocabulary to describe themselves and their bodies

## Review:

Approval by the Governing Body on September 2021

Signed:  Chair of Governors

Signed:  Headteacher

Review date: When Dept for Education guidance changes

## 2. **Statutory Requirements:**

As a maintained primary school we must provide relationships education to all pupils as per section 34 of the [Children and Social work act 2017](#).

However, we are not required to provide sex education but we do need to teach the elements of sex education contained in the science curriculum.

In teaching RSE, we must have regard to [guidance](#) issued by the secretary of state as outlined in section 403 of the [Education Act 1996](#).

At Crowdys Hill School we teach RSE as set out in this policy.

As a maintained secondary school we must provide RSE to all pupils as per the [Children and Social work act 2017](#).

In teaching RSE, we must have regard to [guidance](#) issued by the secretary of state as outlined in section 403 of the [Education Act 1996](#).

## 3. **Policy Development**

This policy has been developed in consultation with staff, pupils and parents. The consultation and policy development process involved the following steps:

1. Review – a member of staff or working group pulled together all relevant information including relevant national and local guidance
2. Staff consultation – all school staff were given the opportunity to look at the policy and make recommendations
3. Parent/stakeholder consultation – parents and any interested parties were invited to view the policy and return feedback
4. Ratification – once amendments were made, the policy was shared with governors and ratified

## 4. **Definition**

**The purpose of a whole school Relationships and Sex Education policy is to:**

- Explain the definition, aims and objectives of RSE.
- Describe what we teach and the approaches we use.

This policy helps ensure that the Crowdys Hill school community (pupils, parents/carers, staff, and governors) have a shared understanding of this important area of the curriculum. It is accessible to all stakeholders on the school website or by request.

RSE is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity.

Some aspects are taught in science, and others are taught as part of personal, social, health and economic education (PSHE).

RSE involves a combination of sharing information and exploring issues and values. RSE is not about the promotion of sexual activity.

## 5. Curriculum

Our curriculum is set out as per Appendix 1 - 4 but we may need to adapt it as and when necessary.

We have developed the curriculum in consultation with parents and staff, taking in to account the age, needs and feelings of students. If students ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed and don't seek answers online.

Primary sex education will focus on:

- Preparing boys and girls for the changes that adolescence brings

For more information about our curriculum, see our curriculum map in Appendix 1-4.

## 6. Delivery of RSE

Staff at Crowdys Hill understand that effective RSE can make a significant contribution to the development of the personal skills needed by our students if they are to establish and maintain relationships. Effective RSE is essential if our students are to make responsible and well informed decisions about their lives. It helps support young people through their physical, emotional and moral development. It helps young people learn to respect themselves and others and move with confidence from childhood through adolescence into adulthood.

**Addressing Relationships and Sex Education has three main elements enabling pupils to:**

- Explore their own and other peoples' attitudes and values.
- Develop and practice personal and social skills.
- Increase their knowledge and skills.

RSE is taught within the personal, social, health and economic (PSHE) education curriculum. Biological aspects of RSE are taught within the science curriculum, and other aspects are included in religious education (RE). Secondary students will also have opportunity to be taught aspects of the RSE curriculum during Social Skills sessions and tutor time with their class tutors.

## **Primary**

Relationships education focuses on teaching the fundamental building blocks and characteristics of positive relationships including:

- Families and people who care for me
- Caring friendships
- Respectful relationships
- Online relationships
- Being safe

For more information about our RSE curriculum, see Appendices 1 and 2.

## **Secondary**

RSE focuses on giving young people the information they need to help them develop healthy, nurturing relationships of all kinds including:

- Families
- Respectful relationships, including friendships
- Online and media
- Being safe
- Intimate and sexual relationships, including sexual health

For more information about our RSE curriculum, see Appendices 3 and 4.

**These areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).**

## **7. Roles and Responsibilities**

### **7.1 The governing board**

The governing board will approve the RSE policy, and hold the headteacher to account for its implementation.

### **7.2 The headteacher**

The headteacher is responsible for ensuring that RSE is taught consistently across the school, and for managing requests to withdraw pupils from [non-statutory/non-science] components of RSE (see section 8).

### **7.3 Staff**

Staff are responsible for:

- Delivering RSE in a sensitive way
- Modelling positive attitudes to RSE
- Monitoring progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from the [non-statutory/non-science] components of RSE

Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the headteacher.

Teaching Staff responsible for RSE at Crowdys Hill School:

All primary teachers – overseen by Debbie New and Emily Russell

Secondary Teachers: Joanne Brierley, Claire Gillmore, Tracy Mason, Sara Amawi, Emma Orchard, Vicki Brown, Emma Dundas, Donna McGaughlin, Sarah Curtis, Louise Butterworth, Adrian Lee, Joe Dickens, Catherine Bartlett – overseen by Joanne Brierley

Sixth form – Zoe New & Rachel Heath, overseen by Lisa Baptiste

### **7.4 Pupils**

Pupils are expected to engage fully in RSE and, when discussing issues related to RSE, treat others with respect and sensitivity.

## **8. Parents' right to withdraw**

### **Primary**

Parents do not have the right to withdraw their children from relationships education.

### **Secondary**

Parents have the right to withdraw their children from the [non-statutory/non-science] components of sex education within RSE up to and until 3 terms before the child turns 16. After this point, if the child wishes to receive sex education rather than being withdrawn, the school will arrange this.

Requests for withdrawal should be put in writing using the form found in Appendix 5 of this policy and addressed to the headteacher.

A copy of withdrawal requests will be placed in the pupil's educational record. The headteacher will discuss the request with parents and take appropriate action.

Alternative work will be given to pupils who are withdrawn from sex education.

## **9. Training**

Staff are trained on the delivery of RSE as part of their induction and it is included in our continuing professional development calendar.

The PSHE Lead teachers will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSE.

## **10. Monitoring arrangements**

The delivery of RSE is monitored by Debbie New, Joanne Brierley, Lisa Baptiste and SLT through:

- planning scrutiny
- learning walks
- student voice

Pupils' development in RSE is monitored by class teachers as part of our internal assessment systems. Evidence of learning will be monitored on our school online assessment system, Evidence for Learning.

This policy will be reviewed by Debbie New, Joanne Brierley, Lisa Baptiste and SLT annually. At every review, the policy will be approved by the governing board and the headteacher.

**Overview for Sixth Form PSHE Asdan with RSE (2 year programme)**

**CONTEXT & INTENT:** Students will develop skills and knowledge of things that matter to them now and into the future. Staff will promote emotional wellbeing and equip students with ways to self-support their personal, social, health and economic aspects of life as they transition from life at school to future independent living. Where overview refers to Modules, these are taken from the PSHE short course where resources can be used to support teaching.
